

Boker

What is **B**oker?

It is:

Fast paced

High energy

Crazy

Super fun

But seriously:

It's Texas hold

'em style poker

that has cards

from a bunch of

other stuff in it.

How do I play?

Just like Texas Hold 'em, but each player gets a "play" phase each round, and any hand can be won by the rule set of any card played during the play phase.

What if it isn't clear what a card would do in the context of poker?
Simple, the first person to shout out what the card does decides!

What if I don't like that? Challenge! A challenge can be resolved three ways:

(1) Mediation by independent judge,
(2) staring contest where you get to tickle each other, (3) Chugging contest
